**DIAMOND IS BUILDING
HERSELF A BRIGHT FUTURE!**

Diamond Barange first came to No More Empty Pots as an applicant for the [Culinary Certificate Program](#) to explore the culinary field and learn to cook. The program provided 8 weeks of hands-on and classroom instruction led by an experienced executive chef, while gaining professional experience in a commercial kitchen creating and testing recipes. With the support of the No More Empty Pots team, Diamond engaged with [Culinary On Demand](#) for her continued, after graduation. The demonstration for developed Culinary skills and accepted a job offer with their team!

Diamond is thoughtful and interested in her approach to building her resume. She is an entrepreneur at heart and is continuously testing the best experiences to build her skills. The Culinary Certificate Program gave Diamond an opportunity to both step into the culinary field and build upon her overall literacy to become a successful entrepreneur. She said, "I have so much gratitude to accomplish, and I will make my dreams come true no matter the battle ahead."

No More Empty Pots paves the way for individuals like Diamond through providing holistic experiences in education, job training and career mapping. Our team looks forward to continually supporting Diamond in creating a future she dreams for herself!
