

Education. Stewardship. Sustainability.

No More Empty Pots' collaborations lead to self-sufficiency of people and economic resilience of communities. Each food hub component is rooted in proven models and sustainability. Any one component could be successful on its own but the symbiosis of the interdependent system enables a greater, more sustainable impact.

WE FIGHT POVERTY

With Local Foods. Training. Jobs. Entrepreneurship.

By providing educational opportunities, access to affordable healthy foods, and community collaboration

LEGEND

Target audience
All spaces are intergenerational

Food Hub spaces

Impact areas

Family
